Facilities in EU countries

Many courts in Member States are now equipped with videoconferencing facilities in the courtroom or in special hearing rooms for witnesses and experts.

To make it easier for judges, prosecutors and court staff to find the practical information they need to conduct a hearing by videoconference in cross-border proceedings, the Member States' Justice Ministries have provided details on the location and type of videoconferencing facilities available in courts. Please select the relevant country's flag to obtain detailed national information. No details are given of equipment installed in ministries or prisons.
