5. FAQ

Question: Where does the data come from?

Answer: The data on notaries is derived from the registers of the participating national chambers of notariats as provided by the CNUE and other competent bodies.

Question: Is the search in real-time?

Answer: Yes, the search is in real-time.

Question: Why can't I search in all EU member states?

Answer: In some EU Member States a notary profession does not exist. We are currently working towards the interconnection of the registers in the UK and Ireland where the profession of *notaries public* exists.

Question: I am experiencing a technical difficulty / the service is not available, can you please fix it?

Answer: We cannot ensure the 24/7 availability of the service or its availability. Should you experience systematic service unavailability or another technical issue you may notify us and the Commission will do its best to rectify the problem as soon as possible.

Question: I am a notary registered in a participating organisation and the service does not return a result on me / the information is wrong / I want to be removed. Whom shall I contact?

Answer: Please take contact with your relevant chamber of registration. The Commission does not have access nor can modify in any way the notariats' data. You will find contact information below.

Question: I have another question, whom can I contact?

Answer: Please see below.
