

Prima pagină > Legislație și jurisprudență > Identificatorul european de jurisprudență (ECLI)**Identificatorul european de jurisprudență (ECLI)**

Identificatorul european de jurisprudență (European Case Law Identifier — ECLI) a fost creat pentru a facilita citarea corectă și neechivocă a hotărârilor pronunțate de instanțele europene și naționale. Un set unitar de metadate va contribui la îmbunătățirea instrumentelor de căutare a jurisprudenței.

Înainte de crearea ECLI, găsirea jurisprudenței relevante era un proces dificil care necesita mult timp. Să luăm, de exemplu, cazul în care se cunoștea faptul că o hotărâre a curții supreme a unui stat membru A prezenta interes pentru o dezbateră juridică specifică. Cauza era înregistrată în diverse baze de date de jurisprudență, naționale și transfrontaliere, dar în fiecare bază de date hotărârea avea un alt identificator. Toți acești identificatori — în cazul în care erau cunoscuți — trebuiau menționați pentru ca respectiva cauză să fie găsită într-o anumită bază de date. Căutarea era îngreunată și de existența unor reguli diferite de citare și a unor stiluri diferite. În plus, utilizatorii trebuiau să parcurgă toate bazele de date pentru a afla dacă această cauză a curții supreme era disponibilă — rezumată, tradusă sau adnotată. Cu sistemul ECLI va fi suficientă o singură căutare, pe o singură interfață de căutare, folosind doar un identificator pentru a găsi toate ocurențele hotărârii în toate bazele de date participante, naționale și transfrontaliere.

Accesul facilitat la hotărârile judecătorești din alte state membre este de o importanță crescândă pentru consolidarea rolului instanțelor naționale în aplicarea și respectarea legislației UE. Procesul de căutare și de citare a hotărârilor din alte state membre este îngreunat în mod semnificativ de diferențele dintre sistemele naționale de identificare a jurisprudenței, de norme de citare și de câmpurile tehnice care descriu caracteristicile unei hotărâri.

Pentru a remedia aceste aspecte și a facilita accesul la jurisprudența națională, străină și europeană și citarea acesteia, Consiliul Uniunii Europene a invitat statele membre și instituțiile UE să introducă identificatorul european de jurisprudență (ECLI) și un set minim de metadate uniforme pentru jurisprudență.

Caracteristicile principale ale ECLI

ECLI este un identificator uniform care are același format, ușor de recunoscut, pentru toate statele membre și instanțele judecătorești din UE. Acesta este alcătuit din cinci elemente obligatorii:

„ECLI”: pentru a se marca faptul că este vorba de identificatorul european de jurisprudență;

codul de țară;

codul instanței care a pronunțat hotărârea;

anul în care a fost pronunțată hotărârea;

un număr de ordine, de până la 25 de caractere alfanumerice, într-un format care urmează să fie stabilit de fiecare stat membru; se permite folosirea punctelor, dar nu și a altor semne de punctuație.

Elementele sunt separate prin semnul de punctuație două puncte. Un exemplu (inexistent) de ECLI ar putea fi:

ECLI:NL:HR:2009:384425, însemnând decizia nr. 384425 a Curții Supreme („HR”) din Țările de Jos („NL”), din 2009.

Metadate

Pentru a facilita înțelegerea și găsirea jurisprudenței, fiecare document care conține o hotărâre judecătorească ar trebui să conțină un set de metadate, astfel cum sunt descrise în acest paragraf. Aceste metadate ar trebui descrise conform standardelor stabilite prin [Dublin Core Metadata Initiative](#).

[Concluziile Consiliului privind ECLI](#) oferă o descriere a metadelor care pot fi utilizate.

Coordonatorul ECLI

Fiecare stat membru care utilizează ECLI trebuie să desemneze un organism guvernamental sau o organizație judiciară drept coordonator ECLI la nivel național. Coordonatorul ECLI la nivel național este responsabil de stabilirea listei de coduri pentru instanțele participante, de publicarea modului în care este constituit numărul de ordine, precum și de toate celelalte informații care sunt relevante pentru funcționarea sistemului ECLI. Coordonatorul ECLI pentru EU este Curtea de Justiție a Uniunii Europene.

Fiecare stat membru decide dacă și în ce măsură va folosi sistemul ECLI, de exemplu, dacă acesta va fi folosit retroactiv pentru hotărârile anterioare sau numărul instanțelor care participă, de exemplu numai la nivelul instanței supreme sau la nivelul tuturor instanțelor, etc.

Dimensiunea europeană și internațională

Făcând clic pe steagurile statelor membre din partea dreaptă, veți găsi informații **privind aplicarea** ECLI de către the Curtea de Justiție a Uniunii Europene și Oficiul European de Brevete.

În conformitate cu [concluziile Consiliului](#), Comisia Europeană a dezvoltat [un motor de căutare multilingv](#) care permite utilizatorilor să găsească hotărâri judecătorești aflate în baza de date a organismelor care asigură publicarea jurisprudenței și care au adoptat standardul ECLI; o condiție suplimentară este ca aceste organisme să fi acordat Comisiei acces la datele lor.

Un rezolvitor ECLI este, de asemenea, disponibil la <https://e-justice.europa.eu/ecli/> - orice ECLI introdus după această cale va afișa metadatele ECLI relevante (dacă sunt disponibile). De exemplu, <https://e-justice.europa.eu/ecli/ECLI:NL:HR:2016:764> ar urma să afișeze direct metadatele hotărârii ECLI:NL:HR:2016:764.

Paginile statelor membre

Pe paginile statelor membre puteți găsi următoarele informații:

dacă statul membru a introdus deja ECLI și metadatele;

dacă nu, dacă intenționează să facă acest lucru;

dacă da, informații privind codurile instanțelor, regulile de formatare, metadatele etc.;

Generation of national ECLI (ECLI syntax)

The ECLI identifier has been used in the Czech Republic since April 2012 to designate judgments of the Supreme Court (*Nejvyšší soud*) and since March 2014 to designate judgments of the Constitutional Court (*Ústavní soud*). The ECLI identifier is currently being implemented at high court and regional court levels. Judgments designated with the ECLI identifier are also searchable using the identifier on court websites (judgments of the Supreme Court at <https://nsoud.cz/> and judgments of the Constitutional Court at <http://nalus.usoud.cz/>).

Country code

[CZ]: country code for the Czech Republic.

Court codes

[NS]: *Nejvyšší soud* (Supreme Court of the Czech Republic).

[US]: *Ústavní soud* (Constitutional Court of the Czech Republic).

Example of ECLI identifier for Czech court decisions

ECLI:CZ:NS:2012:[case number].1

[CZ] country code (*CZ* for the Czech Republic);

[NS] is the code of the court that issued the judgment (*NS* for the Supreme Court - *Nejvyšší soud*);

[2012] indicates the year the judgment was rendered;

[case number] does not contain spaces or forward slashes; these are replaced by full stops;

The number [1] is the ordinal number of a decision with the same case number.. Inclusion of the ordinal number ensures that the same ECLI identifier is not used to designate more than one judgment from one court in the same year.

In Germany, the Federal Constitutional Court (*Bundesverfassungsgericht*), the Federal Court of Justice (*Bundesgerichtshof*), the Federal Administrative Court (*Bundesverwaltungsgericht*), the Federal Fiscal Court (*Bundesfinanzhof*), the Federal Labour Court (*Bundesarbeitsgericht*), the Federal Social Court (*Bundessozialgericht*) and the courts of the *Länder* have introduced the ECLI into their databases of decisions. An ECLI is allocated to all decisions published on their respective websites since the ECLI was introduced. For details, see:

Structure of ECLIs

General

ECLIs have five components. Each component is separated from the others by a colon. ECLIs allocated by Germany always start with ECLI () followed by DE for Germany (). The third component, known as the court code (), shows which court took the decision (e.g. BVerfG for the Federal Constitutional Court). The fourth component () indicates the year in which the decision was taken and consists of a four-digit sequence (in the format yyyy, e.g. 2016).

ECLI : DE : BVerfG : 2016 : b s 20160301 c . 2bvb000113

① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨

The courts generate the final component, known as the ordinal number (and upwards), according to their own individual rules. The court codes and ordinal numbers used by each court are explained separately below.

Details for individual courts

Federal Constitutional Court

The court code () is always BVerfG. The ordinal number consists of parts to . The second-last and last parts are separated by a point. The exact components of the ordinal number are explained in detail below.

Type of procedure:

b	Finding that one or more parties have acted unconstitutionally
c	Appeal against a ruling in an electoral dispute
e	Dispute resolution proceedings between constitutional bodies
f	Abstract judicial review
g	Federal Government / <i>Länder</i> disputes
h	Other disputes between the Federal Government and the <i>Länder</i>
k	Disputes concerning the constitution of a <i>Land</i>
l	Substantive judicial review
m	Review of international law as Federal law
n	Interpretation of the Basic Law following referral by the constitutional court of a <i>Land</i>
p	Decisions on other matters referred to it by Federal Act
q	Interim measures
r	Constitutional complaints
up	Full-court decisions
vb	Complaints regarding judicial delay

Abbreviations for court formations: k for decisions of a Chamber or s for decisions of a Senate (division) (not for full-court cases or complaints regarding delay; in these cases, the court formation is implicitly indicated by the abbreviations up and vb).

Exact date of decision in the format yyyyymmdd.

Optional: an additional distinguishing character (assigned in alphabetical order from a to z). This is used when decisions are handed down by the same court with the same date and file reference (e.g. same date and file reference given for the extension of an interim order and the decision on the substance of the case). A distinguishing character is only added if it is necessary to prevent the allocation of ambiguous ECLIs.

Main file reference (consisting of the division identifier, the register reference, the entry number and the year of entry in the format yy). There are no spaces between the division identifier and the register reference, nor between the register reference and the entry number. The slash between the entry number and the year of entry is also omitted from the ECLI. The entry number is always shown as a four-digit number in an ECLI. If necessary, leading zeros are inserted before the entry number. The last two digits therefore always represent the year of entry.

Example:

The ECLI for the decision of the Second Division of the Federal Constitutional Court of 1 March 2016 with file reference 2 BvB 1/13 is:

ECLI : DE : BVerfG : 2016 : b s 20160301 c . 2bvb000113

① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨

The additional character c indicates that this is the fourth decision with an otherwise identical ECLI.

Federal Court of Justice

The court code () is always BGH. The ordinal number consists of parts to . Parts and are separated by a point. The exact components of the ordinal number are explained in detail below.

Exact date of decision in the format ddmmyy.

Abbreviation for the type of decision (U for judgment (*Urteil*), B for ruling (*Beschluss*), V for order (*Verfügung*), S for other).

Main file reference (consisting of the division identifier, the register reference, the entry number and the year of entry in the format yy). There are no spaces between the division identifier and the register reference, nor between the register reference and the entry number. The slash between the entry number and the year of entry is replaced with a point.

An additional distinguishing character (assigned consecutively from 0 to 9) is always used when several decisions of the same type are handed down with the same date and file reference.

Example:

The ECLI for the ruling of the Second Criminal Division of the Federal Court of Justice of 15 March 2016 with file reference 2 StR 487/15 is:

ECLI : DE : BGH : 2016 : 150316 B 2STR487.15 . 2

① ② ③ ④ ⑤ ⑥ ⑦ ⑧

The additional character 2 indicates that this is the third decision with an otherwise identical ECLI.

Federal Administrative Court

The court code () is always BVerwG. The ordinal number consists of parts to . Parts and are separated by a point unless the file reference suffix D (judicial protection in the event of excessively long legal proceedings) has been assigned, in which case there is no point between the file reference () and the additional distinguishing character (). The exact components of the ordinal number are explained in detail below.

Exact date of decision in the format ddmmyy.

Abbreviation for the type of decision (U for judgment (*Urteil*), B for ruling (*Beschluss*), G for order (*Gerichtsbescheid*)).

Main file reference (consisting of the division identifier, the register reference, the entry number and the year of entry in the format yy). There are no spaces between the division identifier and the register reference, nor between the register reference and the entry number. Older file references have a slash between the entry number and the year of entry; in ECLIs, this slash is replaced with a point.

An additional distinguishing character (assigned consecutively from 0 to 9) is always used when several decisions of the same type are handed down with the same date and file reference.

Example:

The ECLI for the judgment of the Ninth Division of the Federal Administrative Court of 17 April 2002 with file reference 9 CN 1/01 is:

ECLI : DE : BVerwG : 2002 : 170402 U 9CN1.01 . 0

① ② ③ ④ ⑤ ⑥ ⑦ ⑧

Federal Fiscal Court

The court code () is always BFH. The ordinal number consists of parts to . Each part is separated from the others by a point. The exact components of the ordinal number are explained in detail below.

Abbreviation for the type of decision:

VE	Request to the Court of Justice of the EU for a preliminary ruling
VV	Submission to the Federal Constitutional Court
BA	Ruling in proceedings for interim measures: application for suspension of enforcement [A1] and appeal against a decision to suspend enforcement [A2]
B	Ruling, except where BA is to be assigned
U	Judgment, legally binding court order, interlocutory order, etc.

Exact date of decision in the format ddmmyy.

Main file reference (consisting of the division identifier, the register reference, the entry number and the year of entry in the format yy). There are no spaces between the division identifier and the register reference, nor between the register reference and the entry number. The slash between the entry number and the year of entry is replaced with a point.

An additional distinguishing character (assigned consecutively from 0 to 9) is always used when several decisions of the same type are handed down with the same date and file reference.

Example:

The ECLI for the judgment of the Tenth Division of the Federal Fiscal Court of 1 June 2016 with file reference X R 66/14 is:

ECLI : DE : BFH : 2016 : U . 010616 . XR66.14 . 0

① ② ③ ④ ⑤ ⑥ ⑦ ⑧

Federal Labour Court

The court code () is always BAG. The ordinal number consists of parts to . Each part is separated from the others by a point. The exact components of the ordinal number are explained in detail below.

Exact date of decision in the format ddmmyy.

Abbreviation for the type of decision (U for judgment (*Urteil*), B for ruling (*Beschluss*)).

Main file reference (consisting of the division identifier, the register reference, the entry number and the year of entry in the format yy). There are no spaces between the division identifier and the register reference, nor between the register reference and the entry number. The slash between the entry number and the year of entry is replaced with a point.

An additional distinguishing character (assigned consecutively from 0 to 9) is always used when several decisions of the same type are handed down with the same date and file reference.

Example:

The ECLI for the judgment of the Tenth Division of the Federal Labour Court of 7 January 2015 with file reference 10 AZB 109/14 is:

ECLI : DE : BAG : 2015 : 070115 . B . 10AZB109.14 . 0

① ② ③ ④ ⑤ ⑥ ⑦ ⑧

Federal Social Court

The court code () is always BSG. The ordinal number consists of parts to . The parts are not separated in any way. The exact components of the ordinal number are explained in detail below.

Exact date of decision in the format ddmmyy.

Abbreviation for the type of decision (U for judgment (*Urteil*), B for ruling (*Beschluss*)).

Main file reference (consisting of B for Federal Social Court, the division identifier, the field identifier, the number of the entry in the relevant field and the associated register, the year of entry in the format yy and the register reference). Non-alphanumeric components of the file reference are omitted.

An additional distinguishing character (assigned consecutively from 0 to 9) is always used when several decisions of the same type are handed down with the same date and file reference.

Example:

The ECLI for the judgment of the Third Division of the Federal Social Court of 25 January 2017 with file reference B 3 P 2/15 R is:

ECLI : DE : BSG : 2017 : 250117 U B3P215R 0

① ② ③ ④ ⑤ ⑥ ⑦ ⑧

Courts of the Länder

The admissible court codes () are listed in the [attached table](#) (52 KB) [de](#). The ordinal number consists of parts to . Each part is separated from the others by a point. The exact components of the ordinal number are explained in detail below.

Exact date of decision in the format mmdd.

File reference (or file references, if there are multiple file references) of up to 17 characters, beginning with the first character of the main file reference. If there is a point after the 17th character, this point is omitted. Umlauts are replaced (ä = AE, ö = OE, ü = UE) and non-alphanumeric characters such as spaces or slashes are omitted. If numbers or letters would be displayed next to each other, they are separated by a point (e.g. 9 C 1023/12 becomes 9C1023.12).

An additional two-digit distinguishing code (assigned consecutively from 00 to 99) is always used when several decisions of the same type are handed down with the same date and file reference.

Example:

The ECLI for the decision of the Sixth Grand Chamber for Economic Offences of Stuttgart Regional Court of 26 January 2015 with file reference 6 KLS 34 Js 2588/10 is:

ECLI : DE : LGSTUTT : 2015 : 0126 . 6KLS34JS2588.10 . 00

European Case Law Identifier (ECLI) - Estonia

Since 2018 it has been possible to search Estonian case law that has been published and is in force by using ECLI, the European Case Law Identifier. It is easier and quicker to find Estonian case law using the identifier. The adoption of the ECLI also supports the implementation of open data policies. The ECLI has also been added to the metadata page for case law, which opens in the search results.

The ECLI has been added to all Supreme Court and county and district court case law since the second half of 2016.

Published case law has been given an ECLI since the second half of 2016, and the number is made up of five components separated by a colon (for example ECLI:EE:RK:2016:1.16.2798.84).

ECLI – European Case Law Identifier; EE – country identifier; RK – court identifier; 2016 – year of publication; 1.16.2798.84 – (e.g. 1-16-2798/84) in the number of the court case, the symbols '-' and '/' are replaced by dots and the sequential control number '84' is added at the end.

The ECLI number can also be used as a URL and searches can be performed using the following logic (where 'kohtulahendid' means 'case law'):

.../kohtulahendid/ecli/ECLI:EE – all case law with an ECLI

.../kohtulahendid/ecli/ECLI:EE:RK:2016 – all Supreme Court case law in 2016

.../kohtulahendid/ecli/ECLI:EE:RK:2016:1.16.2798.84 – a specific Supreme Court judgment

The court identifiers are as follows:

RK – Supreme Court

TLRK – Tallinn District Court

TRRK – Tartu District Court

TLHK – Tallinn Administrative Court

TRHK – Tartu Administrative Court

HMK – Harju County Court

PMK – Pärnu County Court

TMK – Tartu County Court

VMK – Viru County Court

European Case Law Identifier (ECLI) - Greece

Greece currently participates in the ECLI system, with the  **Council of State** (Συμβούλιο τῆς Επικρατείας).

There is no unified electronic database containing all domestic court rulings.

There are several electronic case law databases on the web, relating to:

the  **Hellenic Supreme Court** (Αρείος Πάγος), containing only its own case law

the  **Council of State**, containing administrative court rulings

the  **Piraeus Administrative Court of First Instance** (Πρωτοδικείο Πειραιός), containing only its own case law.

There are also private subscription databases.

For example:

that of the  **Athens Bar Association** (Δικηγορικός Σύλλογος Αθηνών)

that of the company  **Intracom Services** (private)

European Case Law Identifier (ECLI) - Spain

National ECLI coordinator

The National ECLI coordinator is CENDOJ (*CENTRO DE DOCUMENTACION JUDICIAL*), the Centre for Judicial Documentation, a technical body in Spain's General Council of the Judiciary:  cendoj.ecli@cgpj.es.

Country code

The code for Spain is: [ES]

Creation of the national ECLI

The ECLI was introduced in Spain in November 2012.

This was possible because, since the start of the ECLI Project on 27 October 2011, case law in Spain already had a national identifier, called the ROJ (*Repositorio Oficial de Jurisprudencia*) - the Official Case Law Repository, which identifies the decisions handed down by all the Spanish courts, from the Courts of First Instance to the Supreme Court.

Through the website  <https://www.poderjudicial.es>, we offer all citizens open access to the decisions handed down by all the Spanish courts, consisting of a total of 5 600 000 judgments, a number which increases every year. Judges/Senior Judges, Prosecutors and Court Clerks have access in a restricted environment with additional information and hyperlinks to the case law of the Constitutional Court (*Tribunal Constitucional*), the European Court of Justice, as well as national and international legislation and doctrine:  <https://www.poderjudicial.es>.

We currently maintain the ROJ national identifier - the Cendoj ID - as the official body for the dissemination of Spanish case law, and the ECLI at European level. On the e-justice portal, we therefore have, as of 2014, 2 500 000 decisions of the Supreme Court (*Tribunal Supremo*), the National High Court (*Audiencia Nacional*), the High Courts of Justice (*Tribunales Superiores de Justicia*) and Provincial Courts (*Audiencias Provinciales*), as well as a selection of judgments from the Courts of First Instance (*Primera Instancia*) that are of legal interest or have social impact. The number of decisions increases every day as they are uploaded into the system. The ECLI integration process was successfully completed in Spain, and we are currently a partner in the BO-ECLI project.

The ECLIs in Spain consist of the following fields:

'ECLI';

The country code: 'ES'

The court code: an acronym to indicate the court in which the judgment was given. – see the section 'ECLI court codes';

The year of the decision;

A serial number, which in the case of Spain is the sequential number of the ROJ national identifier. This means that once a judgment has been assigned its ROJ, it is possible to automatically assign to it its corresponding ECLI.

Furthermore, in the case of Orders (*Autos*), the letter 'A' is added to the end of the sequential number.

EXAMPLES:

Where the ROJ is: the national case-law identifier.

1) *Judgment of the National High Court of 30 May 2014. Criminal Court, with ROJ [SAN 2389/2014](#)

The corresponding ECLI will be:

ECLI:ES:AN:2014:2389

2) *Judgment of the High Court of Justice of 15 April 2011. Appeals Chamber of Burgos, Autonomous Community of Castile-Leon, with ROJ: STSJ CL 782 /2011

The corresponding ECLI will be:

ECLI:ES:TSJCL:2011:782

Order of the National High Court Chamber for Criminal Matters of 29 October 2015, with ROJ: ANN 199/2015

The corresponding ECLI will be:

ECLI:ES:AN:2015:199A

ECLI court codes:

In Spain, the court code for the ECLI is represented using the acronym of the court that issued the judgment and which corresponds with that used in the judgment's ROJ national identifier.

European Case Law Identifier (ECLI) - France National ECLI Coordinator

The Office of Legal and Administrative Information (*Direction de l'information légale et administrative* ( DILA)) has been designated as the national ECLI coordinator for France by the General Secretariat of the Government.

Country code

The country code for France is: [FR]

Generation of national ECLI

The French supreme courts covered by the ECLI system are:

the Constitutional Council (*le Conseil constitutionnel*);

the Court of Cassation (*la Cour de cassation*);

the Council of State (*le Conseil d'Etat*).

ECLIs are made up of five components, the first two of which are constants for a Member State:

ECLI:FR:{Court_code}:{year when decision was rendered}:{ordinal number}

Each of the three courts has adopted a court code and rules for creating an ordinal number.

The year in which the decision was handed down is always made up of four numerical characters (in the format YYYY, for example 2012).

1. The Constitutional Council

The court code is always CC.

The generic form of an ECLI is therefore:

ECLI:FR:CC:{year of decision}:{ordinal number}

The ordinal number is in two parts, separated by a full stop:

the serial number within each type of decision (which starts again at 1 every year);

the type of decision (DC, QPC, AN... [see list of types](#)).

For example:

the ECLI for the decision of Friday 27 July 2012 No 2012-270 QPC would be ECLI:FR:CC:2012:2012.270.QPC.

2. The Court of Cassation

The court code is always CCASS.

The generic form of an ECLI is therefore:

ECLI:FR:CCASS:{year of decision}:{ordinal number}

The ordinal number is made up of two elements, written without a break:

The ECLI code for the division of the court (two alphanumerical characters as laid down in the table below):

AP	<i>Assemblée plénière</i> (Full Court)
AV	<i>Avis</i> (Opinion)
C1	<i>Première chambre civile</i> (First Civil Division)
C2	<i>Deuxième chambre civile</i> (Second Civil Division)
C3	<i>Troisième chambre civile</i> (Third Civil Division)
CO	<i>Chambre commerciale</i> (Commercial Division)
CR	<i>Chambre criminelle</i> (Criminal Division)
MI	<i>Chambre mixte</i> (Joint Bench)
OR	<i>Ordonnance du premier président</i> (Order of the President)
SO	<i>Chambre sociale</i> (Social Division)

The code is based on the use of an internal administration number, which itself has eight characters:

a one-character code identifying the division of the court;

two digits for the year of the decision;

a five-digit serial number running within that year for the division of the court in question.

Example: the appeal number of the judgment of the Court of Cassation, Criminal Division, of 27 February 2013, is 12-81.063 and the administration number is C1300710. The first part of the ordinal number of this judgment will be CR, for the Criminal Division.

The last five digits of the administration number.

In our example, the second part of the ordinal number will be 00710. Altogether, the ECLI of the judgment handed down by the Criminal Division of the Court of Cassation on 27 February 2013, under the appeal number 12-81063, will be ECLI:FR:CCASS:2013:CR00710.

3. The Council of State

The Council of State uses a court code which identifies the type of division of the court: the root CE is followed without a break by a number of letters as shown below:

<i>Assemblée</i> (Assembly of Presiding Judges)	CEASS
<i>Ordonnance</i> (Order)	CEORD
<i>Section du contentieux</i> (Disputes Division)	CESEC
<i>Sous-section jugeant seule</i> (Subdivision ruling alone)	CESJS
<i>Sous-sections réunies</i> (Subdivisions sitting together)	CESSR
<i>Chambre jugeant seule</i> (Chamber ruling alone)	CECHS
<i>Chambres réunies</i> (Chambers sitting together)	CECHR

The code CE is not used on its own.

The generic form is therefore:

ECLI:FR:CE...:{year of the decision}:{ordinal number}

The ordinal number is also made up of two parts, separated by a full stop:

the application number of the decision;

the date of the delivery of the decision, in the format YYYYMMDD.

For example:

the ECLI of Council of State decision No 355099 of 1 March 2013, delivered by the third and eighth subdivisions sitting together, would be: ECLI:FR:CESSR:2013:355099.20130301

European Case Law Identifier (ECLI) - Croatia

On 18 January 2017 the Republic of Croatia started to apply the European Case Law Identifier (ECLI) to court decisions in the [ECLI database of case law](#) which is kept at the Supreme Court of the Republic of Croatia (*Vrhovni sud Republike Hrvatske*), and which could previously be consulted only on the Supreme Court's website. The fact that all publicly available court decisions are given an ECLI means that they are publicly available through the search engine of the European e-Justice Portal – ESE EEJP. This makes it easy for citizens and legal practitioners from other EU Member States to search the database for decisions of Croatian courts, and for Croatian citizens and legal practitioners to consult decisions of courts of other Member States.

European Case Law Identifier (ECLI) - Italy

National ECLI Coordinator

The national ECLI coordinator has not yet been appointed. For the time being the Ministry of Justice's Directorate General for Automated Information Systems (DGSIA) is acting as coordinator.

Country code

The country code for Italy is: [IT].

Generation of national ECLI

As part of the current pilot phase activities, a proposal for the introduction of ECLI is being drawn up. More particularly, rules are being drawn up on the composition of the ordinal number for case-law documents, as stipulated in the ECLI standard, using a set of accessible metadata in order to guarantee that each identification number is unique.

European Case Law Identifier (ECLI) - Latvia

National ECLI coordinator

The National ECLI coordinator is the [Courts Administration](#) (*Tiesu administrācija*).

Contact e-mail: pasts@ta.gov.lv

Country code

The country code of Latvia is: [LV]

Generation of national ECLI

In Latvia, ECLI was introduced in September 2017. ECLI is attributed to all court rulings registered in the Court Information System, except for rulings adopted in the form of resolutions and decisions by investigating judges. Publicly available rulings are published on the website <https://www.elieta.lv/web/>.

Structure of the elements in the Latvian ECLI code

ECLI:LV:AAAAAA:BBBB:CCDD.E12345678.90.FF, where

ECLI is an invariable designation of the European Case Law Identifier;

LV is an invariable country code: international code of the Republic of Latvia;

AAAAAA court code;

BBBB year of the ruling;

CCDD.E12345678.90 consecutive number of the ruling, where

CC two digits of the month the ruling was adopted;

DD two digits of the day the ruling was adopted;

E12345678 case number or, where there is no case number, the archive number or file number of the application;

90 sequential number of the ruling within the case or in the context of examining a claim, if there is no case number;

FF type of ruling (RS (assignments sitting), L (decision), S (judgment), BL (incidental ruling)).

For example: Ruling ECLI:LV:RAT:2016:1201.C28087609.1.S (where ECLI stands for the European Case Law Identifier, LV is the international code of the Republic of Latvia, RAT is the code of the regional court of Riga (*Rīgas apgabaltiesa*), 2016 is the year of the ruling, 1201 is the date of the ruling (1 December), C28087609 is the case number in accordance with the procedure set out in this chapter; 1 is the sequential number of the ruling, and S means the type of ruling is a judgment).

European Case Law Identifier (ECLI) - Netherlands

National ECLI coordinator

The national ECLI coordinator is the Council for the Judiciary (*Raad voor de rechtspraak*). You can contact the coordinator at the following email address: kennissystemen@rechtspraak.nl

Country code

The country code for the Netherlands is: [NL]

Generation of national ECLIs

The ECLI was introduced in the Netherlands on 28 June 2013. An ECLI can be allocated to:

all judicial decisions published on the website of the [Council for the Judiciary](#);

all disciplinary decisions published on the official website (on the [joint disciplinary website](#));

all judicial decisions not published on the websites under (a) and (b) but published in magazines or databases, and judicial decisions published commercially as 'open access'. Magazine editors or database managers who wish to register their decisions can do so via the above email address;

all judicial decisions kept in an internal database of the Council for the Judiciary.

Regardless of whether the decision itself is published on one of the two websites referred to above, all Dutch ECLIs, together with at least the name of the body that delivered the decision, the date of the decision and the case number, can be found on [rechtspraak.nl](#).

Where known, publication references are also given for any reports of the decision in journals or databases. [Dutch ECLIs](#) are made up of the following: 'ECLI';

country code 'NL';

court code (see under the heading '[ECLI court codes](#)' (*Gerechtscode*);

year of the decision;

a serial number. There are two possible formats.

Before 28 June 2013, virtually all decisions published in the Netherlands were given a country case number (*Landelijk Jurisprudentie Nummer*, LJN). This LJN always consisted of two letters and four figures, e.g.: 'AB1234'. For reasons of consistency, this LJN has been included as the fifth part of the ECLI code. As of 28 June 2013, LJNs are no longer allocated. All decisions given an ECLI after that date have an ascending serial number consisting solely of figures.

This may also be the case for decisions issued before 28 June 2013.

The most important court codes

Email: esm@esm.org.pt

Website: <https://www.esm.org.pt/>

Country code

The country code for Portugal is: [PT].

Generation of national ECLI

Portugal's introduction of the European Case Law Identifier (ECLI) was completed in November 2018, as part of a project co-financed by the European Union through the Justice Programme 2014-2020 of the Directorate-General for Justice and Consumers (DG JUST). This was a joint initiative of the Supreme Council of the Judiciary (*Conselho Superior da Magistratura*) and the Institute for Financial and Estate Management of Judicial Services (*Instituto de Gestão Financeira e Equipamentos da Justiça*).

The ECLI currently covers judgments of the higher courts:

The Supreme Court of Justice (*Supremo Tribunal de Justiça*)

The Coimbra Court of Appeal (*Tribunal da Relação de Coimbra*)

The Évora Court of Appeal (*Tribunal da Relação de Évora*)

The Guimarães Court of Appeal (*Tribunal da Relação de Guimarães*)

The Lisbon Court of Appeal (*Tribunal da Relação de Lisboa*)

The Porto Court of Appeal (*Tribunal da Relação do Porto*)

The website <https://jurisprudencia.csm.org.pt/> provides access to a new search engine for national case-law using the ECLI.

The ECLI in Portugal is made up the following components:

'ECLI';

The country code: 'PT';

The court code: 'STJ', 'TRL', 'TRP', 'TRC', 'TRE' or 'TRG' (the ECLI is currently available to identify judgments of the Supreme Court of Justice and the appeal courts of Lisbon, Porto, Coimbra, Évora and Guimarães);

The year of the judgment;

A serial number, which in Portugal's case, is based on the case number (plus occasionally two identifying characters used for the distribution of cases in the higher courts).

Each component is separated by a colon.

Example of a Portuguese ECLI:

The identifier **ECLI:PT:TRC:2017:198.15.3GCACB.C1**, corresponds to a judgment handed down in Portugal (PT), by the Coimbra Court of Appeal (TRC), in 2017, in case No 198/15.3GCACB.

European Case Law Identifier (ECLI) - Romania

National ECLI coordinator

The Ministry of Justice is the national ECLI coordinator – dti@just.ro

Country Code

The Country Code for Romania is [RO]

Generation of national ECLI

ECLI was introduced in Romanian courts at the end of 2015.

The ECLI is automatically assigned, using the electronic case management system (ECRIS), to judgments handed down since 2007 by the courts (High Court of Cassation and Justice, appeal courts, tribunals and district courts). For judgments handed down after 15 December 2015, ECLI also appears in paper format.

At the moment there is no online database of national case law base connected to the ECLI search engine within the e-Justice Portal. However, there is a database in which all judgments handed down by Romanian courts in 2010 are taken from the ECRIS system and published in anonymised form - [ROLII](#), currently under development.

In Romania the ECLI code consists of:

'ECLI';

country code 'RO';

court code - a list of court codes can be found [here](#)  (256 Kb) [ro](#);

the year of the judgment;

an ordinal number, consisting of the internal number of the corresponding electronic register in the ECRIS system (unique to the court) and the judgment number as granted in the court decision register (unique to the register).

Example:

The ECLI code assigned to a judgment delivered by District Court of Bucharest 4 could look like this: ECLI:RO:JDS4B:2017:001.004053, where 'JDS4B' is the court code, '2017' – the year of the judgment, '001' – the internal number of the corresponding electronic register in the ECRIS system and '004053' is the judgment number.

Registry Department,

Tavčarjeva 9,

SI-1000 Ljubljana

Slovenia

Contact email: ekli.vsr@ sodisce.si

Country code

The country code for Slovenia is: [SI]

Generation of national ECLI

On 1 October 2011, Slovenia introduced an ECLI as an integral part of all existing documents published in the [case law databases of its courts](#). All new documents which are entered into case-law databases also receive an ECLI. An ECLI will also be included in all new judicial decisions in the near future. All ECLIs are created automatically on the basis of the existing data.

All known private publishers of case law documents have been informed about the ECLI, and most of them have already assigned an ECLI to published documents.

Court codes:

VSRS: Supreme Court of the Republic of Slovenia (Vrhovno sodišče Republike Slovenije)

USRS: Constitutional Court of the Republic of Slovenia (Ustavno sodišče Republike Slovenije)

VSCE: Higher Court in Celje (Višje sodišče v Celju)

VSKP: Higher Court in Koper (Višje sodišče v Kopru)

VSLJ: Higher Court in Ljubljana (Višje sodišče v Ljubljani)

VSMB: Higher Court in Maribor (Višje sodišče v Mariboru)

UPRS: Administrative Court of the Republic of Slovenia (Upravno sodišče Republike Slovenije)

VDSS: Higher Labour and Social Court (Višje delovno in socialno sodišče)

Note: Court codes consist of four letters. The list of participating courts currently only applies to appellate courts, the Supreme Court and the Constitutional Court of the Republic of Slovenia, whose decisions are already published in national case law databases. Other courts and institutions will be added in the near future.

Year of decision:

The year in which the decision was issued is used (YYYY entry).

Reference number:

The regular ordinal number (hereinafter: RON), e.g. II Ips 123/2005 of a particular court (datafield: Odločba (=decision)) is used as the basis for the formation of the ECLI ordinal number (hereinafter: EON).

Other words (e.g. Sodba, Sklep, etc.) which may be part of the field Odločba are not considered part of RON and are to be omitted/deleted in the formation of EON.

The year, which is a part of RON, remains part of the new EON.

As regular ordinal numbers include signs such as dashes, slashes or empty spaces, each one of these is to be replaced by a period sign within the ECLI format (e.g. II Ips 123/2005 becomes II.Ips.123.2005; I K 123456/2010 becomes I.K.123456.2010, etc.).

The general rules for EON are subject to the exceptions defined in special cases below.

Special cases:

A: Where one joint decision lists two or more RONs, only the first RON is used for the formation of the ECLI. 'A' is to be added at the end of EON in such cases. Other RONs can be accessed through document metadata.

Example:

Sodba II Ips 49/2008 and II Ips 28/2011

then the ECLI is:

ECLI:SI:VSRS:2008:II.IPS.49.2008.A

B: Where a decision uses only one RON which is similar to a number of other decisions with different RONs, the others have not been added to the case law databases. The first RON is used for the creation of the ECLI, and the others are mentioned as 'same as' in the metadata. The remaining RONs are used to create ECLIs which are listed in the database as relating to similar decisions.

Example:

Sodba VIII Ips 432/2009, same as VIII Ips 50/2009 and VIII Ips 448/2009, VIII Ips 28/2009

then ECLI is:

ECLI:SI:VSRS:2009:VIII.IPS.432.2009,

same as:

ECLI:SI:VSRS:2009:VIII.IPS.50.2009

ECLI:SI:VSRS:2009:VIII.IPS.448.2009

ECLI:SI:VSRS:2009:VIII.IPS.28.2009

Users searching for any of these ECLIs will be directed to the same document.

C: In the past there were instances where RON of the same court could be duplicated, because the institution operated at different branches and did not have a centralized case management system (e.g. UPRS). The exact branch is identified in the metadata of a document. In such cases a '.letter' combination representing the branch is to be added at the end of EON, based on the following classification:

Celje: **.C**

Ljubljana: **.L**

Nova Gorica: **.G**

Maribor: **.M**

D: Some penal (criminal law) documents in the SOVS database of the Supreme Court use two RONs in the field 'Odločba'. The first uses the ordinal number (in the form -NN), while the other is included in brackets (). The reason for this is a double registration of cases during a transition phase for the introduction of a computerised criminal case management system.

In these cases only the first RON is used for the creation of the ECLI, to which the ordinal number of the case is added after the year. The other RON mentioned in brackets is discarded and does not form part of the ECLI.

Example:

Sodba I Ips 3248/2009-39 (I Ips 10/2010)

then the ECLI is:

ECLI:SI:VSRS:2009:I.IPS.3248.2009.39

E: In some cases several documents of the same court use the same RON, for example interim measures and final decisions. In these cases, a number is added for the purpose of EON creation. The first decision (according to date of issue) does not have a numerical addendum. The next one receives addendum '1', the subsequent one '2', etc. Addenda are assigned automatically based on the date when the document was issued.

Example:

Sklep G 6/2011 (note: duplicated in a number of documents)

then the ECLIs are:

ECLI:SI:VSRS:2011:G.6.2011

ECLI:SI:VSRS:2011:G.6.2011.1

ECLI:SI:VSRS:2011:G.6.2011.2

etc.

European Case Law Identifier (ECLI) - Finland

Finland will use the European Case Law Identifier (ECLI) in all case law databases in Finlex, the national legal databank.

The national ECLI coordinator is Aki Hietanen at the Finnish Ministry of Justice. E-mail address:  finlex@om.fi.

Country code

The country code for Finland is [FI].

Generation of the national ECLI

Finland will use the European Case Law Identifier (ECLI) in all case law databases in Finlex, the national legal databank. Use of the identifier was initially tested on the case law databases of the Finnish Supreme Court (*korkein oikeus*) and the Supreme Administrative Court (*korkein hallinto-oikeus*). The identifier will also be used in the databases of the Courts of Appeal (*hovioikeudet*), the administrative courts (*hallinto-oikeudet*) and the special courts (*erityistuomioistuimet*). In 2017, metadata in the judgments will be enriched with ECLI metadata. Metadata from the Dublin Core Metadata Initiative are already being used in Finlex's case law databases.

The ECLI is also used in Finlex's case law literature database, which contains references to court decisions from Finnish legal literature since 1926. Case law consists of judgments of, among others, the Finnish Supreme Court, the Supreme Administrative Court, the Courts of Appeal, the European Court of Human Rights and the Court of Justice of the European Union.
